By email to: info@careengland.org.uk

Dear Professor Green

Amanda Hatton, Corporate Director – People Services, has passed your letter dated 5th February 2021 to me, as the lead for commissioning in City of York Council.

- As required by the DHSC, CYC's support to the care sector has been published on our website, including financial support. [links: <https://www.york.gov.uk/ShapingCare>]
- We are in regular / daily dialogue with individual providers about their position and any challenges and risks they face.
- Providers in York have fully utilised the Capacity Tracker, which captures many issues, including occupancy and key risks.
- We are in regular dialogue with the Independent Care Group which represents many providers in York and North Yorkshire, and we are currently consulting them about a range of issues, including the proposals for inflationary uplifts.

Yours sincerely
