18<sup>th</sup> March 2021

Dear Provider,

**RE: Specialist Housing with Care contract - inflationary increase to agreed rates to apply from 5th April 2021**

We are writing to inform you of inflationary awards to be applied to this contract for the coming financial year.

We, the Council recognise our clear responsibility to ensure that we manage public funds in an appropriate way and carefully balance our budgets. In calculating the annual inflationary award for 2021/22 we have considered cost pressures faced by providers and the need to support a local market that is sustainable. This comes at an increasingly challenging time for the health and social care sector however we have once again been able to allocate funding to award a significant increase to contract rates.

We are therefore pleased to be able to inform you that the rates for this contract will increase by 2%.

Yours sincerely,

[REDACTED]
